Introducing In-App Provisioning for Apple Pay Devices

Lifetime Benefit Solutions is pleased to announce an alternative payment option to gain faster access to your reimbursement plan funds for major events such as open enrollment. Users who have mobile wallet enabled on their Apple mobile device can now easily add the reimbursement debit card as a payment option.

Please note users will need to be enrolled in an active reimbursement plan. The debit card will be generated upon enrollment. Once the debit has been generated the user will be able to add it to the wallet.

The physical card is not needed prior to adding the debit card to the mobile wallet.

Supported Mobile Wallets

In-app provisioning is currently available for Apple Pay.

Supported Card Providers

In-app provisioning is currently available for Visa.

# Follow the below steps to add a Debit Card to Apple Device Mobile Wallet

Step 1:

Sign into the Lifetime Benefit Solutions Mobile App.
